OCS Vu-Graphs

Al:

1. This is just to follow up on our telephone conversation of last week when I mentioned that Carl Duckett would like to have OCS develop some new Vu-graphs which might be included in DD/S&T briefings. You have a good idea from our discussion the other day of just what was in his mind, and I have alerted [REDACTED] that you will be getting in touch with him soon.

2. There was no deadline on this request, but just at your earliest convenience.
